

Quantum Alliance Border-Less Auto Policy

**Quantum Alliance offers the first Border-Less Personal Auto Policy in the country.
This policy is sold exclusively through our Independent Agent Partners.**

U.S. Auto Insurance policies are not recognized in Mexico, only policies from a Mexican Insurance Company are. Quantum has formed a strategic alliance with one of the largest auto carriers in Mexico. **Quantum's Border-Less** personal auto policy is a specialized Texas Auto Policy with geographical coverages throughout Texas and Mexico. The **Quantum Border-Less** policy is your "Proof of Financial Responsibility" and is recognized under Mexican law.

Quantum offers coverage to personal vehicles that are domiciled in Texas that cross the border into Mexico. There are no limits on how many times you may cross the border or how far you can travel into Mexico. The Mexico Endorsement must be added to the policy for the Coverage to apply.
